EU Directive 2002/95/EC (The ROHS Regulations)

The Restriction of the use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2008 (the ROHS Regulations) implement the EU Directive 2002/95. The Regulations ban the placing on the EU market of new electrical and electronic equipment containing more than agreed levels of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE) flame retardants

The ROHS Directive applies to eight categories of electrical and electronic equipment but specifically excludes products in Category 9 (Monitoring and Control Instruments). The range of Genlab products fall into Category 9.

However Genlab is committed to preserving the environment and has endeavoured to voluntarily remove any harmful substances from all of our products.

Derek Crompton
Director
